### **EDUCATION**

In Colonies containing a large number of schools, it will be sufficient, if no deatiled Return of them, already exists, to state full particulars of those only which are Government institutions, giving the total statistics of the others.

The particulars for each school should show whether it is Denominational, and whether fees are charged.

The number of Scholars should be given, both from the total number, on the roll, and from the average attendance during the year.

The totals should indicate the aggregate number of children receiving instruction in the Colony. Same particulars of the subjects taught in the Higher Schools should be given under the head of Remarks.

The Board receives an annual grant from the Legislature of £6000, out of which school houses, teachers' residences, &c., have to be provided and kept in repair as well as the payment of teachers' salaries and general expenses. The cost is greatly enhanced by the breaking up of the population into many small settlements long distances apart on the various Islands, themselves separated for many miles.  The sum set opposite each school only covers the salaries of teachers and assistants, but taking the total cost of education to the Colony into consideration the average cost for each child on the rolls is 14s. 8d. and for each child in average attendance 20s. 11d. This calculation includes grant-in-aid schools. |  |  |

School fees are supposed to be the teachers' chief income, but very few are paid in cash. Field produce and labour are the principal items, and no returns of these, nor of the occasional cash payments, are ever made to the Education Department. The total amount is however in each case so small that but for the grants the schools would be closed.  The grants to Devils Point, Snug Corner and Current Island were discontinued during the latter part of the year. |  |  |

<sup>\*</sup> By "Prædial Larceny" is meant the offence—prevalent in the sugar-growing and Coolie-importing Colonies—of robbing provision grounds and homesteads. It need not be filled up in Colonies where such crime is not prevalent; and, it being struck out, any other prevalent crime may be substituted—as Cattle Stealing, Arson, &c., &c.

<sup>\*\*</sup> Include both Offences against rights of Property and Injuries to the subjects of Property.

State how many Reports of the following kinds have come under the notice of the Governor.

- (I) Financial and Statistical (showing, amongst other things, on what system the money and Store accounts are kept and audited.)
- (II) Reports by the Person or Persons charged with the immediate management of the Asylum.

(III) Reports by an Official Inspector independent of the Governing body of the Asylum.

These are included in the Reports on the whole Institution. No separate reports are made nor accounts kept of the expenditure on account of the different departments of the Institution.
